

I listen to KLOVE and Calvary Chapel Radio on translator stations 88.9 & 89.5 in Oklahoma City, OK. These are the only two stations that I listen to because they bring encouragement and direction for living a God influenced life. If these stations were displaced for the LPFM, it would be a great loss to the community. This would cause many people to have no radio station to listen to with good, wholesome family music and discussion. This is very important to everyone today who is fighting to build a strong family and community.
